- We applied Customer to Customer(C2C) model instead of Business to Customer(B2C) model
- Students trade books directly to each other
- This can significantly reduce the textbook rental fees for students(skip the platform)
- Other C2C successful model: Airbnb, Ebay,Taobao

The screenshot shows the sign-up screen for the TextbookRental app. The title "SignUp" is at the top. The form consists of several text input fields with placeholder text and red underline indicating they are required:

- Email: \_\_\_\_\_
- Password At least 6 \_\_\_\_\_
- Re-enter Password \_\_\_\_\_
- Full Name: \_\_\_\_\_
- University: \_\_\_\_\_
- Location: \_\_\_\_\_

A section titled "Security Question" contains the question "Who is the author of this cool App? ▾". Below it, the word "Answer" is followed by a long red underline and the text "Used for retrieve password". At the bottom right is a grey button labeled "CREATE". The bottom of the screen has a black navigation bar with three icons: a triangle pointing left, a circle, and a square.
